Medical Revenue Recovery Specialists

TBS Strategic
Advisory
Consulting

The TBS
"Consortium"

Is Your Medical Practice Capturing all of its Revenue?

TBS Medical Recovery Specialists will help you.

Could these be some of the reasons?

Lack of properly trained Coders/
Consistency of Coder Audits/
ICD-10 transition issues resulting in proficiency issues and denied claims

Denial claims follow-up becoming an issue due to ICD-10 transition or lack of staff for proper follow-up

Underpaid claims that have unsuccessfully gone through the denial review process as well as underpaid claims that are simply not questioned become zero balance accounts thus leaving large amounts of potential revenue uncaptured

Coding Services Offered

Our range of coding services

Supplemental Coding Staff with TBS Remote Coding Professionals

- Nationwide pool of certified ICD-10 coders whose certification is vetted by a third party, tested for capabilities and grouped according to experience with specific medical specialties
- All remote access is through our secure HIPAA compliant centralized VDI Platform utilizing dual credentialing with connectivity through encrypted protocol. Shadow support from AHIMA Certified Management Team with reporting and support monitoring capabilities.

Coder Auditing

Monthly coding audits of both Inpatient and Outpatient coding staff including interactive collaboration between auditor and coder designed to improve future results

Coding Training

Remote and Onsite AHIMA Certified Training to keep coding staff at peak performance as well as assisting in the medical professionals in Clinical Documentation (CDI) improvement

Coder Services From Experts

Denial Claims Management

TBS denial claims services

Outsource your Denial Claims Recovery

Our experienced personnel thoroughly review the Insurance Policy Details /Explanation of Benefits/Patient's Medical Records to ensure that the claim is paid appropriately. The team ascertains the party liable for the pending payment, and does regular follow-up with the liable party (Insurance/Patient) for the payment recovery

Our services will be supplied through remote access into the hospitals billing and coding system and will contract on either an hourly basis as needed or set a fee percentage based on recovery of denied claims thus reducing overhead needed for dedicated denial claims staff

Denial Claims Recovery & Management

Payment Integrity Recovery Audit

Our recovery audit services

Underpayment Recovery Audit of all *Zero* Balanced Claims

Monthly Audit

Ongoing Monthly Audit as well as an initial 12 month in arears audit of all claims that have been finalized with zero balances

Past Experience

Past experience of 15 years has determined approximately 5% of all claims audited will be identified as underpaid

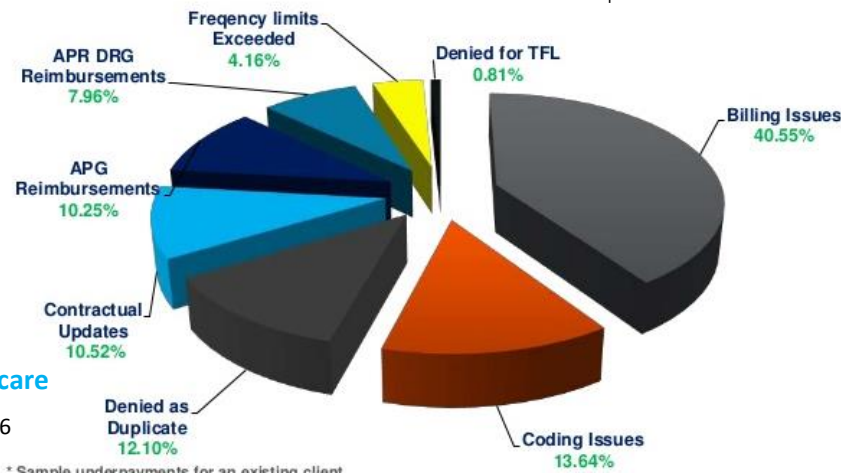

Recovery History

Our service has a history of recovering close to 80% of the claims identified as underpaid and has collected millions of dollars for individual hospitals

Consignment

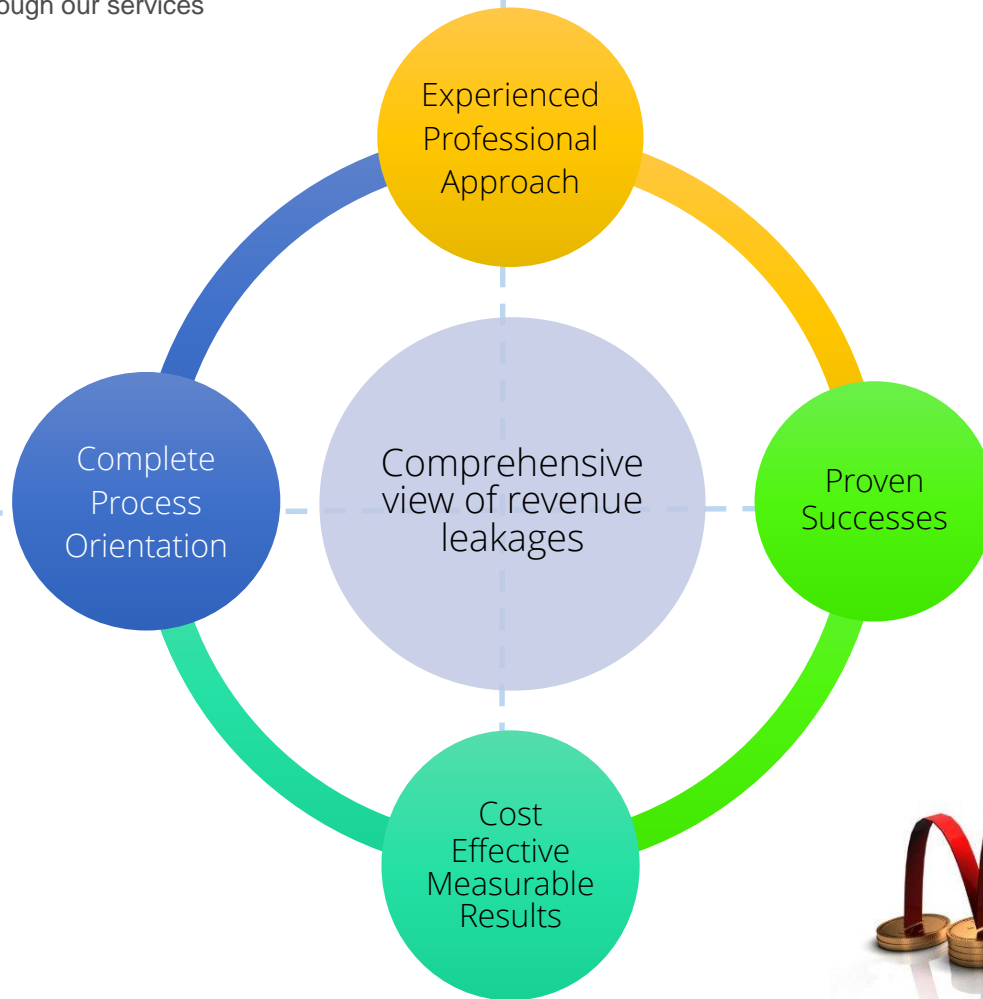

This service is done completely on Consignment with an agreed upon fee percentage of funds recovered, due only after funds are in the hospitals bank account

A '360 degree Review' approach is adopted to identify underpayments from a billing, coding & reimbursement perspective.
